

ROYAL PHOTOGRAPHICS, INC.

You should know!

Serving schools sine 1985

Value For The Money

Our high quality all digital photography offers you the easiest school portrait system available in America today. We also offer more portraits for less money then anyone else!

Add-On Sheets

Our add-on sheet prices are ALWAYS lower then the competition. Other companies charge \$8.00 to even \$14.00 per sheet (see our low pricing on your portrait agreement).

Studio Logos

Our images are not defaced with a studio logo on each print. Parents have explicitly told us in focus groups that they DO NOT like these advertising messages on their portraits. Other companies including Lifetouch have company advertising logos on EVERY print in their portrait packages.

My Portrait on CD

We sell high resolution images on CD-ROMs with a copyright release to anyone that wants them. They are available either at the time of order or on a reorder basis. We offer these images because that is what the public wants. All of your students' parents other images are digital and they want files of our images as well. Many other school photography companies do not offer image files to their customers and our CD-ROMS are available with a portrait package most times at prices more then 50% less then the competition

ID's Required

If you decide to make ID's Required for your schools we'll hear you and understand because we wrote the book on school ID card design and fulfillment. Our business unit ID's Required has designed the easiest way to have replacement ID cards made for your students and staff. We give you your own personalized private web page to submit your replacement orders to us 24/7. We send out replacement ID cards usually within hours so you can get on with the job you do best. No other school ID cards system is faster or better for your district. You will even see online what the status of your orders are as they are produced. At Royal Photographics we are not just school portrait photographers we are an integral part of your school's security plan.
